

TRANS-CANADA CAPITAL

About Trans-Canada Capital Inc.

Trans-Canada Capital (TCC) is a leading asset management firm specializing in innovative investment strategies. Since 2009, TCC has successfully managed Air Canada's pension assets—one of the largest corporate pension plans in Canada. The firm has built a strong reputation for delivering superior returns through alpha-generating strategies within a disciplined, risk-controlled framework.

With C\$32 billion in assets under management*, a team of over 125 investment professionals based in Montreal and Toronto, and a comprehensive suite of alternative investment solutions, TCC is well positioned to meet the needs of investors seeking consistent, long-term returns.

One team, no silos

Our team-based approach ensures that all investment decisions are made collaboratively by experienced professionals with diverse and complementary expertise. We are committed to finding new investment opportunities and develop innovative strategies to drive strong, risk-adjusted returns.

Product offering

- Fixed income: sophisticated strategies to enhance value, manage unwanted risks, and further diversify active positions, ensuring a balanced and resilient investment approach.
- Equities: Diversified sources of alpha within differentiated equity strategies, including long-only and long/short equity funds, to optimize returns and enhance portfolio resilience.
- Alternatives: Open-ended global private markets solution providing diversified exposure to private equity, private debt, real estate, and infrastructure, with access to exclusive investment opportunities.
- Absolute return: Market-neutral investment strategies provide stable returns, risk diversification, and alpha generation across all market conditions.
